READING (20 Marks)

1. Read the passage carefully and answer the following questions.

Braille is a method of reading through touch. As you can see in the figure, there is one Braille symbol for each of the twenty-six symbols (letters) of the English alphabet. But Braille requires more space. This is because the letters cannot be written too close together. Since Braille requires more space, a Braille book is thicker than a regular printed book. Braille is not just for people with blindness. Even people with sight can learn Braille too. Then they can write small poems and stories in Braille.

A. Fill in the blanks.

(2 x 1 = 2 Marks)

- i) Regular printed book is _____ than Braille book.
(thicker / thinner)
- ii) Braille is not just for people with _____. (kindness / blindness)

Copy down the passage correctly only once in neat handwriting.

Kindness can bring a big smile to someone's face. It can be as simple as offering a thing which someone needs or listening to someone who needs to talk. Kindness can brighten up a person's day and even change their life. When we show kindness to others, it creates a ripple effect, inspiring them to pay it forward. By spreading kindness, we can make the world a more loving place.
